Veracity Justice Nemesis Intervention Democracy

## **Mission Statement**

Holocaust Today is a non-profit think tank organization dedicated to the propositions of Veracity, Justice, Nemesis, Intervention and Democracy for the cause of multiple millions of defenseless minorities - with an estimated 20 to 25 million minorities at the present time - all minorities from all ethnicities, national origin, race, religion, custom, tradition and language in Germany and Austria, subjugated, savaged, disaffected and marginalized since nearly seven decades under the tyrannical reign of AustroGerm's rogue regimes and the broaden part of their deplorable populaces.

Holocaust Today commences the justice and nemesis on to the ever-known uncultivable and uncivilisable nations (first documentarily diagnosed over two millennia ago, then unequivocally on display since) by the operation of two Class Action indictments to the two United Nation's International Criminal and Civil Courts of justice first, by then subsequently, launches the national indictments in the course of the national phase in each United Nations' member country.
